

## A 'Not So Scary' look at Instrument Flight!

As an IFR pilot the training you receive is intended to make you a more professional and precise pilot. IFR basically translates into the pilot having the necessary skills to be able to fly "blind" by using only their instruments, navigation, radar, and ATC guidance. In order to be able to fly under IFR rules you will need to successfully go through instrument rating pilot training and pass FAA exams to be able to legally do so.

**Directions:** From Orlando area take Hwy 441 north thru Apopka toward Zellwood. 3 miles past Plymouth turn left into airport located along 441

From Mt. Dora area take Hwy 441 south thru Zellwood drive past airport on right to first right turn into airport entrance

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
